WHO ARE WE?

Australia's contemporary a cappella association, Vocal Australia, presents a variety of highly successful programs including vocal festivals, showcases and workshops. With the aim of developing and promoting the vocal music scene in Australia, Vocal Australia presents engaging, educational workshop programs in schools, universities and communities, that have seen a healthy a cappella vocal scene flourishing throughout Australia.

PRESENTERS

Vocal Australia's directors and founders, Amelia Alder and Chris Blain, are both highly qualified and energetic music educators, experienced performers and engaging presenters. Having both toured extensively throughout the world over the last 15 years with internationally acclaimed a cappella groups they have returned to Australia with a wealth of knowledge covering all aspects of contemporary a cappella.

WORKSHOPS

INTRODUCTION TO CONTEMPORARY A CAPPELLA

This session will focus on close harmony singing, balancing and blending voices. Students will gain more confidence singing harmonies independently and will be given an introduction to vocal percussion. All of these skills will be combined into a 4 part a cappella song that will be performed at the end of the session.

VOCAL MIXUP

Students will work on adding a variety of elements to a minimal arrangement of a well-known song. Through encouragement to be creative about chords, textures, bass lines, forms and structures, the students will be led through the project sequentially developing an understanding of the roll of different sections in the song. MIXUP sessions are a great way to work fast, and provide a variety of leadership opportunities within the groups as well.

ARRANGING FOR CONTEMPORARY A CAPPELLA

This interactive workshop will take students through a sequential step-by-step process for arranging contemporary popular songs for a cappella groups. Students will develop an understanding of effective a cappella arranging techniques and ways to apply them to create exciting arrangements.

SONGWRITING

Songwriting is an area we find that many students have an interest and passion for. Throughout the workshop, we will demonstrate and explore the fundamentals of good writing, and examine the relationship between words, melody and chords.

CUSTOM WORKSHOPS

Workshop lengths and combinations of topics can be tailored for your music departments' needs and budget.
